Field Day

The bulk of the meeting surrounded the discussion of whether the club should attempt to put together an in-person Field Day event at this late date. We have a private residence site available and need to gauge club interest in attendance and operation.

The Board decided a 2a class with a vhf station would be appropriate. Two to three antennas, three tents and tables and a porta john would be needed. Complicating matters is the issue that Terry Martin, our usual field day captain, will not be available this year.

The board decided to call a special club Field Day Zoom meeting on Thursday May 27, 2021 at 7 pm to gauge club members' interest before making a Field Day go or no go decision.

June Club Meeting

The June club meeting presentation on NVIS, Direction Finding, Balloon Satellites and underground communication will be given by Stephen Hamilton, KJ5HY, a Cyber Officer in the US Army.
